

ICRC AND DISCIPLINE COMMITTEE BUSINESS MEETING

On June 23, 2022, the Inquiries, Complaints and Reports Committee (ICRC) and the Discipline Committee met for an in-person business meeting. The meeting included educational presentations and group discussions. The ICRC was introduced to a new [Risk Assessment Framework](#), to assist in its review of complaints and reports and to focus file reviews on the level of risk to the public.

The Discipline Committee voted to adopt amended [Rules of Procedure](#). The previous Rules were enacted in 2016 and some revisions were required to bring them in line with current best practice. As well, the amendments formalized changes that were made to the hearings process during the COVID-19 pandemic with respect to virtual hearings and pre-hearing conferences.

Going forward, the College plans to hold bi-annual business meetings for the ICRC and the Discipline Committee.
