On November 3, 2020, the Government of Ontario released the [Keeping Ontario Safe and Open Framework](#).

This announcement is to notify and make Members aware of the new Framework. Although the Framework is not specifically targeting health care professionals per se, it is important that all Members maintain current knowledge of COVID-19 in their area and the Government's response. Members are encouraged to maintain an ongoing awareness of their public health unit region and its level of measures and restrictions.
