Subject: RE: Registrant Practice Data Survey

## College of Chiropodists of Ontario

Dear Member,

As a point of clarification relating to the survey, it is assumed that all members perform routine nail, callus treatment procedures and dispense orthotics to non-high risk patients ("Routine Procedures"). This survey is intended to capture data about the other treatments performed by our members, beyond Routine Procedures. When you answer the survey, you should refer to all other types of procedures you perform with those other types amounting to a total of 100%, not including Routine Procedures. I trust this clarifies the data the College seeks to capture by way of the survey.

Sincerely,  
Nicole Zwiers B.A (Hons) LLB, LLM
